# Prior Park Schools Parent Portal App (Schoolbase)

There is now a new App available on the Apple App Store, the Google PlayStore and the Microsoft Store which is linked to the Parent Portals of both the College and The Paragon. (Click appropriate store for direct link to App)

To access the app, you will need to download the SchoolBase App for your appropriate store
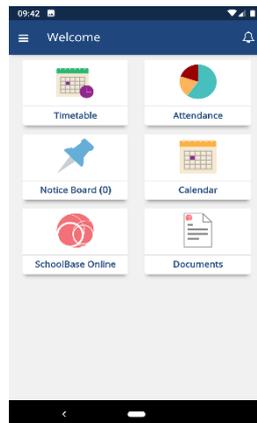

The Prior Park Bath Schools code is 7420

By downloading the App and logging in using your usual portal logon details, you are able to have quick access to the following areas of the parent portal:

Timetable (College only)

Notice Board (see below)

And a quick link to the

Full parent portal opening

in your internet browser.

Attendance

School Calendar (College only)

Documents and all school reports

Timetable and calendar are for College pupils only and each child's timetable can be selected in the top right corner as well as any day and date range in the calendar

Uploaded documents and reports for both schools can be found in the document section

The notice board section allows the College and the Paragon to push notifications to your mobile device as well as your computer. This will give both schools an additional way to get urgent notifications to parents, for example when adverse weather impacts school opening or if a trip is back unexpectedly late

These notifications will appear on any device running the app as well as any computer where you have agreed to receive notifications on logging onto the parent portal (this is usually asked when logging onto a new device for the first time. All these notices will also appear on the dashboard screen of your portal.

At the end of a sessions, do not log out but just close the app. Your details will then be remembered the next time you log in.
